Your Skin

EVORA offers two specifically developed series to meet the needs of mature and demanding skin, the luxury they deserve. Our EvoCell Caviar & Gold is the best gift for mature skin. Gold has the ability to absorb moisture through better binding in the skin. Caviar acts by its high content of fat and amino acids, zinc, vitamin B, and iodine as intense wrinkle reducer. The older we get, the more the hyaluronic acid and collagen are produced in our bodies. As a result wrinkles are formed. One of the most popular miracle weapons against aging is hyaluronic acid. This appears in 3-fold form in all our hyaluronic skin sensation products. Providing the optimal care and moisture boost for the youthful beauty of your skin. The protective substances Eyeseryl™ and Quick Lift™ provide immediate and visible tightening.

HYALURONIC SKIN SENSATION

Hyaluronic acid is an endogenous agent which is produced from the age of 25. It has the ability to bind moisture in large quantities. To counteract skin aging, it is important that the body attach to the hyaluronic acid externally.

The special thing about our hyaluronic products is the hyaluronic acid in 3-times more active form. This method enables a particularly intensive penetration into the various layers of the skin. After a few hours, the skin moisture is increased by a multiple.

EVOCELL *CAVIAR* *& GOLD*

The special active ingredient complex of caviar and gold protects the skin against the evaporation of skin moisture, regenerates effectively and lasting, and ensures a wonderfully firm skin. The precious and energetic gold breaks light on the surface of the skin and the light smooths the skin. The trace elements and minerals contained in the caviar strengthen the skin and slow down the aging process. Honey stores moisture and soothes the skin while the active ingredient Immucell, a yeast extract, activates the metabolism.

PERFECT BODY

Stylize your body, using Perfect Body Active Anti Cellulite Gel. The successful treatment of cellulitic problem areas with Perfect Body Active Anti Cellulite Gel depends on the consecutive daily use over a longer period of time.

Efficacy test, proof
Sederma Co.

In Vivo: 25 people, 28 days, cream with 5% coaxel
Straightening effect detected by echography.

Coaxel has a stronger effect than the individual components due to its complex, based on microbial conversion composition.

1. Benzyl nicotinate

Is, on the one hand, a product which promotes blood circulation, which opens the capillaries under the skin, so that the lymph flow is increased. This mechanism is based on the benzyl nicotinate, which also contains the change in the stoichiometric connective tissue.

2. Coaxel

Consists of the coenzyme A, which is responsible for the structure of the fatty acids, the carnitine acts as an activator of the fatty acid degradation and the caffeine, which has an accelerating influence in the fat breakdown. The overall effect is somewhat comparable to a suction pump for the free fatty acids, which are therefore accelerated.

The treatment with Perfect Body Active Anti Cellulite Gel should be balanced with accompanying activities, particularly conscious diet, brush massage and regular exercise, to achieve the greatest possible success.

PERFECT BODY
ACTIVE ANTI CELLULITE GEL
by EVORA

**PERFECT BODY
ACTIVE ANTI CELLULITE GEL**

Styling your body and visibly reduce cellulite with regular use.

Active Ingredient: Benzyl nicotinate; Coaxel; Carnitine; Caffeine.

Effects: Changes in connective tissue are stimulated; Capillaries of the skin are opened; Lymphatic fluid is removed; Fatty acid is degraded; Fat reduction is accelerated.

Application: Apply daily on the affected body parts. Since the product is immediately effective, it is very important to monitor the application throughout. Thoroughly wash the hands and do not get product too close to the mucous membranes and eyes.

ALOE VORA JUICE

100% natural. 100% free of thickeners. 3 Flavors.
Allow only the best for your body. Our wellness-
beverages consist of at least 90% Aloe Vera, the "miracle
the nature".

The special thing about Aloe Vera:
Aloe Vera has been considered a miracle of nature for over
5,000 years.

The Egyptians and the legendary Cleopatra combined their use
With the pursuit of physical beauty. The Greek
Doctor Dioscordes used the Aloe Vera because of its health-
Promotional properties. Mahatma Gandhi contended for
Aloe Vera, not only as food, but also for purification.

Today the aloe vera plant is making a comeback. The modern
science assumes that the balanced relationship
of mineral substances, trace elements, and vitamins
improve comfort and ensure a healthy body change.

Colostrum is the so called full-cream milk. It is produced by mammals in the first hours after the birth of the newborn. More than 200 years ago, Goethe and Schiller used the useful properties of colostrum for the additional strengthening of the immune system. The product is guaranteed to be free of antibiotics and hormone residues and is produced under strict quality controls.

Colostrum contains among other IGF-1 (insulin-like growth-factor-1) and TGF- β (transforming growth factor- β) which are contained in the cow colostrum in high concentrations. Immunoglobulins protect the body from dangerous substances and substances such as viruses and bacteria.

Growth factors include among other things for the development and the construction of cellular tissue and muscles of importance.
